ABSTRACT

This study, designed to update comparative data on teacher supply and demand and the status of currently active teachers, is divided into five sections: (1) Total Professional Personnel; (2) Letters of Authorization (emergency certificates); (3) New Personnel; (4) Supply of Teachers; and (5) Miscellaneous. Charts and tables are used to give information on the number, background, characteristics, and qualifications of new teachers and of all professional personnel. Data are provided on the match between the field of preparation and teacher assignment. Statistics are given on individuals recommended for certification by the six teacher-preparation institutions in Utah and their subsequent teacher or non-teacher placement. Demographic information concerning number of births, population, and enrollment is included. (DG)

FOREWORD

This study is one of a long series of studies of the supply of teachers, the demand for teachers, and the status of currently active teachers.

The state should look with pride at the accomplishments of Utah educators in spite of the adverse situations which have existed for so many years.

Until 1942 Utah required only three years of college training for the licensing of elementary teachers. In 1942 requirements were changed to four years of preparation for all teachers and the state has now adopted a permissive fifth year in order to prepare teachers adequately for their important work in a rapidly advancing world.

This study is intended to bring these comparative data up-to-date annually. The information may then be used by high school and college counselors, by school administrators, and by all others interested in the schools.

Each intern in general receives a percentage of a beginning teacher's salary.

The personnel are contracted to 40 school districts and are assigned to 40 administrative offices, 420 elementary schools, 37 middle schools, 64 junior high schools, 100 high schools, 50 special education schools and 15 alternative high schools and vocational schools.

Fifty-one percent of the total professional personnel are employed in Davis and Salt Lake counties. The same counties enroll 51% of the total enrollment in public schools.

Elementary men classroom teachers are 9.3% of the total while elementary women classroom teachers are 38.5% of the total. Middle men classroom teachers are 3.1% of the total while middle women classroom teachers are 2.7% of the total. Secondary men classroom teachers represent 20.6% of the total and secondary women classroom teachers are 12.8% of the total. Table 1, pages 1-3.

Age Distribution: The median age for all personnel is 39.2. The median age for all men is 41.8 and for women 37.1. The median age for elementary men is 38.4 and women is 37.0. The median age for middle school men is 39.3 and women is 35.5. The secondary median age for men is 40.9 and women is 36.0. The median age for administrators is 50.2. For the men administrators the median age is 50.6 and for the women administrators 47.0. Tables 26-34, pages 32-40.

Median Age

Year	Men	Women
81-82	40.9	36.4
82-83	41.5	36.8
83-84	41.8	37.1

Experience: Median years of experience for elementary classroom teachers is 9.0 years, for middle school 10.0 and for secondary is 12.0 years. Tables 14, 16, 18 pages 19, 21, 23.

2. CREDENTIALS AND TRAINING:

Letters of Authorization: This type of emergency certificates were issued to 153 out of the total 18,024 professional personnel as of June 1, 1984. This represents 0.8% of the total professional personnel. Proper credentials are held by 99.2% of the total professional personnel. Six districts show 100% of their personnel with proper certification in all subject areas. Additional highlights are described under item 4.

Training: Training is divided into eight divisions--from less than a bachelor's degree to a doctor's degree. Of the total personnel 0.3% are interns with less than a bachelor's degree, 10.2% of regular classroom teachers claimed to have a bachelor's degree equivalent or less, 38.5% have a bachelor's degree, 28.5% have between 30-60 hours of college credit above a bachelor's degree, 30.8% have a master's degree or master's plus 45 hours. One and eight tenths percent have a doctor's degree.

Tables 5, 7, 9 pages 9, 11, 13.
